

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

A T T E N T I O N !

Museums, Educational Institutions and Collectors

I am prepared to mount or furnish mounted specimens of mammals, birds, reptiles and fish and to prepare or supply scientific skins and oological specimens.

Our life groups of the above are sought by those who recognize ability and accurateness of workmanship and the perfect condition of material furnished.

Descriptive matter relative to our methods, also references pertaining to our responsibility, will be furnished upon application.

Glimpses of Wild Life

If you are in need of illustrations involving bird life or any of the vertebrates let me know your plans.

I have many unpublished sketches, drawings and paintings truly depicting the creatures of the air, land and water.

Poses and attitudes are characteristic of the species and should enhance the value of your articles.

For Bird Study Indoors

The Bausch & Lomb
Home Balopticon

projects your colored plates, field-book illustrations and diagrams, photographs, etc., as well as solid objects, direct in all their *natural colors*. It is equipped with a new gas-filled Mazda lamp of special design, which is entirely automatic and connects with the ordinary lamp socket.

Simple Form—for opaque objects only, **\$35**

Combination Form—for opaque objects and lantern slides, with instant interchange between the two forms, **\$45**

FOR FIELD WORK, the Bausch & Lomb-Zeiss Stereo Binocular is the ideal bird glass, because of its unusual illumination and compactness.
